

Designation	Sr. Design Engineer - HVAC -Open Positions – 1 Nos
Qualification	BE/B Tech Mechanical
Experience	6-8 Yrs
Industry	Pharma/ Chemicals / Labs

Job Description:

1. Ability to handle projects independently as the Lead Engineer for HVAC systems
2. Specialized in pharma/cleanroom systems: HVAC design, AHU/DHU sizing, and energy-efficient solutions.
3. Basis of Design, Schematics, Air Flow Diagrams
4. Heat load Calculations, AHU Sizing & Selection
5. Compliance with codes, optimizing Energy Efficiency, and collaborating with stakeholders for successful project delivery.
6. Thorough Knowledge of AHUs, DHUs, Heater Bank, Chilled & Hot Water systems, Ducting, HEPA filters, etc.
7. Design Detailing and Construction Documentation
8. BOQs, Specifications, Tenders
9. Sound knowledge of HVAC Erection and Construction Techniques.
10. Monitor project progress and conduct inspections during construction.
11. Excellent Communication skills and inter disciplinary coordination
12. Well versed with MS-Office.& AutoCAD
13. Working knowledge of Revit desired

Designation	Manager – Process & Project – 1 Nos
Qualification	BE/B Tech Mechanical/Chemical
Experience	8-12 Yrs
Industry	Pharma/ Chemicals / FMCG / Labs

Job Description:

1. Ability to lead projects independently as the Lead Process Designer.
2. Thorough knowledge of Layout Design as per GMP requirements for various pharma Projects.
3. Good mix of experience in Formulation, API, Injectables, Hi-potent, Pilot Plant, Kilo Lab projects.
4. Concept Design, Basic & Detailed Engineering
5. Clean Room Construction and Finishes
6. Laboratory Design and Ventilations
7. Warehouse Planning and Design
8. Construction Project Management for Plant setup
9. Turnkey Design-Build Execution
10. Compliance with codes, optimizing Energy Efficiency, and collaborating with stakeholders for successful project delivery.
11. BOQs, Specifications, Tenders
12. Monitor project progress and conduct inspections during construction.
13. Excellent Presentation & Communication skills, and inter disciplinary coordination
14. Well versed with Revit, AutoCAD, Sketchup, Enscape, MS-Office.

Designation	Sr. Design Engineer – Utilities/Mechanical/Piping - Open Positions – 1 Nos
Qualification	BE/B Tech Mechanical
Experience	6-8 Yrs
Industry	Pharma/ Chemicals / Labs

Job Description:

1. Ability to handle projects independently as the Lead Engineer for Mechanical systems, Piping, Black and Clean Utilities
2. Specialized in Pharma, Manufacturing, Labs and R&D Centres:
3. Equipment Sizing and Selections, and Energy-efficient solutions.
4. Basis of Design, Schematics, P&ID, ULD Diagrams
5. Mass Balance Calculations, Pipe Sizing, Selection and Routing.

6.	Compliance with codes, optimizing Energy Efficiency, and collaborating with stakeholders for successful project delivery.
7.	Thorough Knowledge of Boilers, Chillers, Cooling Towers, Air Compressors, Pumps & Valves of different types, Material compatibility for different applications, Hot Water systems etc.
8.	Design Detailing and Construction Documentation
9.	BOQs, Specifications, Tenders
10.	Sound knowledge of Mechanical Erection and Construction Techniques.
11.	Monitor project progress and conduct inspections during construction.
12.	Excellent Communication skills and inter disciplinary coordination
13.	Well versed with MS-Office.& AutoCAD
14.	Working knowledge of Revit desired

<i>Designation</i>	<i>Executive – Business Development (Open Positions – 1 Nos)</i>
<i>Qualification</i>	<i>BE Mech/Electrical (Any Discipline) Preferred candidates from Pharma Equipment Sales Background</i>
<i>Experience</i>	<i>4+ Years</i>
<i>Industry</i>	<i>Pharma/ Chemicals/ Labs</i>

Job Description:

- 1. Excellent Presentation & Communication skills*
- 2. Pleasant & sociable personality*
- 3. Ability to scout for new clients, making presentation. Following up for enquiry.*
- 4. Exhibitions and promotional events.*
- 5. Conducting market research and analysis to evaluate trends, brand awareness and competition ventures.*
- 6. Well versed with MS-Office.*

<i>Designation</i>	<i>Project Architect (Open Positions – 1 Nos)</i>
<i>Qualification</i>	<i>B.Arch./M. Arch (Preferred candidate from Pharma Engineering Consultancy Background)</i>
<i>Experience</i>	<i>4-8 Yrs</i>
<i>Industry</i>	<i>Industrial / Pharma/ Chemicals/ Labs</i>

Job Description:

- 1. Ability to handle projects independently as the Lead Architect.*
- 2. Creative Architectural design for the Projects*
- 3. Conceptualisation, Space Planning*
- 4. Site Master Planning*

5. Overall Architectural Design of a Project
6. Interior Design
7. 3D Façade & Elevations
8. Design Detailing and Construction Documentation
9. Compliance with codes, optimizing Energy Efficiency, and collaborating with stakeholders for successful project delivery.
10. BOQs, Specifications, Tenders
11. Sound knowledge of Civil, Structural & Architectural Construction Technologies
12. Monitor project progress and conduct inspections during construction.
13. Excellent Presentation & Communication skills, and inter disciplinary coordination
14. Well versed with Revit, AutoCAD, Sketchup, Enscape, MS-Office.

Designation	Assistant Accountant (Open Positions – 1 Nos)
Qualification	B.Com/M.Com
Experience	2-4 Yrs
Industry	Industrial / Pharma/ Chemicals/ Labs/EPC
Job Description: <ol style="list-style-type: none"> 1. Strong proficiency in accounting software like Zoho Books, Tally and MS Excel. 2. Experience with accounts payable and receivable 3. Knowledge of financial regulations and compliance 4. Attention to detail and accuracy in financial reporting 5. PO processing, Tax and GST compliances, payroll processing etc. 6. Bachelor's degree in accounting, Finance, or related field 	

Designation	Site Executive - MEP (Open Positions – 1 Nos)
Qualification	BE Mechanical / Electrical
Experience	4-6 Yrs
Industry	Industrial / Pharma/ Chemicals/ Labs
Job Description: <ol style="list-style-type: none"> 1. Ability to handle Clean Room/Lab/Warehouse MEP fitout projects independently as the Lead Engineer. 	

2. *Oversee MEP installations, ensuring quality, safety, and efficiency.*
3. *Skilled in site coordination, issue resolution, and compliance.*
4. *Proficient in project reporting and resource optimization.*
5. *Quality checking, Drawing adherence, Construction Sequence.*
6. *Planning and Tracking Project Schedules.*
7. *Bill checking and certification.*
8. *Knowledge of Commissioning and Qualification activities for Cleanrooms/Pharma*
9. *Well versed with MS-Office & AutoCAD.*

<i>Designation</i>	Site Executive - Civil (Open Positions – 1 Nos)
<i>Qualification</i>	BE Civil
<i>Experience</i>	4-6 Yrs
<i>Industry</i>	Industrial / Pharma/ Chemicals/ Labs
Job Description:	
<ol style="list-style-type: none"> 1. <i>Ability to handle Civil projects independently as the Site Engineer.</i> 2. <i>Oversee Civil installations, ensuring quality, safety, and efficiency.</i> 3. <i>Skilled in site coordination, issue resolution, and compliance.</i> 4. <i>Proficient in project reporting and resource optimization.</i> 5. <i>Quality checking, Drawing adherence, Construction Sequence.</i> 6. <i>Planning and Tracking Project Schedules.</i> 7. <i>Bill checking and certification.</i> 8. <i>Knowledge of Commissioning and Qualification activities for Cleanrooms/Pharma</i> 9. <i>Well versed with MS-Office & AutoCAD.</i>
